Unknown			M.E. Church Cemetery (Ekey)	large footstone marble base	

M.E. Church Cemetery (Ekey) read by Tammy and Terry Hosenfeld & Flora L. VerStraten 30 November, 2007

This cemetery is a long 2 mile hike in the woods, up a steep hill. We had to use the GPS readings to locate what is left of the cemetery. The fact this was a church cemetery is very discouraging. We have found no records of re-interments and signs that there were many other burials at this location were obvious.

We were told this cemetery was located on top of the railroad track tunnel at Gould's. This is what we found in the woods.
